(Note) Revisions to the forecast of consolidated earnings most recently announced : Yes

4. Notes

(1) Changes in major subsidiaries during the period: None

(2) Specific accounting policies applied in the quarterly consolidated financial statements: Yes

(3) Changes in accounting policies, changes in accounting estimates and restatements
   (i) Changes in accounting policies as per the revision of accounting standards: Yes
   (ii) Changes in accounting policies other than (i) above: None
   (iii) Changes in accounting estimates: None
   (iv) Restatements: None

(4) Number of shares issued and outstanding (common stock)
   (i) Number of shares issued and outstanding (including treasury stock)
       September 30, 2014  167,843,845 shares
       March 31, 2014  159,214,656 shares
   (ii) Number of shares held in treasury
       September 30, 2014  825,236 shares
       March 31, 2014  2,743,807 shares
   (iii) Average number of shares during the respective periods
       Six months ended September 30, 2014  167,155,862 shares
       Six months ended September 30, 2013  156,569,906 shares

Average number of shares during the six months ended September 30, 2013 is calculated with assumption that the one for five share consolidation of common stocks being effective on October 1, 2013 was conducted at the beginning of the fiscal year ended March 31, 2014.

(Notes)

(1) As of this report’s publication, the quarterly review procedures in accordance with Japanese Financial Instruments and Exchange Act are in progress.

(2) Forward-looking statements are based on information currently available to Hitachi Zosen Corporation. Therefore, those forward-looking statements include unknown risks and uncertainties. Accordingly, you should note that the actual results could differ materially from those forward-looking statements. Risks and uncertainties that could influence the ultimate outcome include, but are not limited, to the economic conditions surrounding Hitachi Zosen Corporation.
5. Analysis of Financial Results

(1) Overview of consolidated operating results

Our group started the new medium-term management plan "Hitza Vision II" for 3 years from the fiscal year 2014. We adopt the idea of "technology-oriented company" that our sustainable growth will be achieved by our customers' satisfaction and our high value-added based on the unique technology in our operational process as well as the fundamental technology for our products. Based on that concept, we develop the best fit business strategies and focused allocation of our resources so that we give steady results in the two business fields with increasing social demand, "environment/green energy" and "social infrastructure and disaster prevention". At the same time, we approach to various priority things from the viewpoint of innovations – innovation of business strengthening our capability for earnings and growth, and innovation of management strengthening our business bases and financial standings, respectively.

For the six months ended September 30, 2014, Order intake increased to Yen 268,394 million from the same period a year earlier, reflecting the increase by large new orders in Environmental Systems & Industrial Plants and Precision Machinery respectively. Net sales grew to Yen 141,735 million from the same period a year earlier due to the progress on construction of EfW plants in Environmental Systems & Industrial Plants.

Concerning the profitability of operation, while operating loss of Infrastructure increased, the profitability of Process Equipment and others showed recovery. As a result, Operating loss was improved to Yen 3,530 million from the corresponding period a year earlier. On the other hand, Ordinary loss increased to Yen 4,949 million. However, 3,146 million of Extraordinary income was realized due to the recognition of gain on bargain purchase by merger with Daiki Ataka Engineering Co., Ltd. and making NICHIZO TECH INC. a wholly owned subsidiary through share exchange on April 1, 2014. Consequently, Net loss for the period was Yen 2,907 million, improved from the corresponding six months period a year earlier.

Business results by segments are as follows.

Environmental Systems & Industrial Plants:
Net sales increased to Yen 84,518 million from the same period a year earlier due to the steady progress on construction of EfW plants overseas. Operating loss improved to Yen 1,158 million compared with the same period of the last year.

Machinery:
Net sales grew to Yen 27,726 million as production of marine diesel engines steadily rose. Additionally, Operating loss improved to Yen 155 million compared with the same period of the last year.

Process Equipment:
Net sales increased to Yen 8,590 million due to the progress on the project overseas acknowledged in the past fiscal years. Operating loss improved to Yen 191 million compared with the same period of the last year.

Infrastructure:
Net sales decreased to Yen 7,660 million and Operating loss marked Yen 1,814 million from the same period a year earlier due to the intensified competition in the public sector.

Precision Machinery:
Net sales increased to Yen 8,727 million and operating loss showed some recovery to Yen 524 million compared with the same period the previous year under the growth of investments in the private sector.

Other Businesses:
Net sales and Operating income were Yen 4,514 million and Yen 236 million respectively, which were above the level of correspondent period in the last fiscal year.
Due to the nature of business in our group companies, large proportion of projects are completed in the end of March, fiscal year closing month of public sector companies. Thus, there is a tendency that our operating results experience the seasonal fluctuation of earnings every year as sales concentrated in the end of fiscal year.

(2) Overview of consolidated financial position
Assets, Liabilities and Net assets
Total assets decreased by Yen 16,631 million from the previous fiscal year end, to Yen 362,783 million due to the large amount of collection of Trade notes and accounts receivable, although Cash and time deposits increased due to the issue of new bond. Total liabilities decreased by Yen 7,734 million from the previous fiscal year end, to Yen 254,115 million because of the decrease in Notes and accounts payable while Advances received on work in progress increased. Net assets decreased by Yen 8,897 million from the previous fiscal year end, to Yen 108,668 million reflecting Net loss in this quarter period.

(3) Forecast of consolidated earnings

The forecast of consolidated sales in the fiscal year ending March 31, 2015 is revised to Yen 340,000 million, increase by Yen 20,000 million from the previous announcement of Yen 320,000 million made on May 9, 2014. On the other hand, the forecast of consolidated income remains unchanged. Operating income in Environmental Systems & Industrial Plants is expected to grow and make up for the operating loss in Infrastructure.
