#### 5. Analysis of Financial Results

In this chapter, we analyze the consolidated operating results and consolidated financial position. Numerical figures are quoted from "8. Supplementary information" of this report.

### (1) Overview of consolidated operating results

During the first half of the current fiscal year, the global economy has been remaining a severe situation due to the worldwide new Coronavirus (COVID-19) pandemic, but there were some signs of recovery due to measures to prevent the spread of the infection. In Japan as well, the situation remains difficult, but there are signs of a recovery, including capital investment and steady public-sector investment. However, it is still necessary to pay attention to the impact of COVID-19 on the global and Japanese economies.

Under such circumstances, based on the medium-term management plan "Forward 22" that started in the fiscal year 2020, the Group has been promoting various key measures with the basic policies; increase the added value of products and services, promote the selection and concentration of businesses and shift resources to growth areas, and promote work style reforms by improving operational efficiency and productivity.

As a result of the above efforts, for the six months ended September 30, 2021, Order intake was Yen 380.6 billion, increased 72.1% from the same period in the last fiscal year, reflecting an increase of large-sized orders mainly in Environment Business. Net sales were Yen 180.4 billion, increased 8.2% from the same period in the previous fiscal year mainly due to an increase in Environment Business.

Operating loss increased by Yen 0.1 billion to Yen 1.4 billion from the same period a year earlier, reflecting an increase of loss in Machinery & Infrastructure Business. As a result, Ordinary loss slightly increased by Yen 0.4 billion to Yen 2.8 billion and Loss attributable to shareholders of Hitachi Zosen also increased by Yen 1.1 billion to Yen 3.0 billion from the correspondent period a year earlier.

Business results by segments are as follows.

#### **Environmental Business:**

Net sales increased 16.2% to Yen 123.5 billion due to the progress of large-sized EfW constructions overseas. Operating loss was reduced by Yen 0.6 billion to Yen 0.7 billion due mainly to improved earnings in overseas subsidiaries.

#### Machinery & Infrastructure Business:

Net sales decreased 6.2% to Yen 52.9 billion due mainly to a slowdown of orders of press machines to automotive industry. Operating loss increased by 0.9 billion to 0.9 billion from the same period a year earlier.

### Other Businesses:

Net sales decreased to Yen 4.0 billion but Operating income increased by Yen 0.2 billion to Yen 0.2 billion from the same period in the previous fiscal year.

At the beginning of this fiscal year, we have changed the segmentation from Environment Business, Machinery Business, Infrastructure Business, and Other Businesses to Environment Business, Machinery & Infrastructure Business, and Other Businesses. In line with this change, we have restated the figures in the same period of the previous year to reflect the new classification.

Due to the nature of the Group's business, a large proportion of projects is completed at the end of March, fiscal year closing month. Thus, there is a tendency that our operating results experience the seasonal fluctuation.

#### (2) Overview of consolidated financial position

Assets, Liabilities and Net assets

Total assets decreased by Yen 30.9 billion to Yen 398.4 billion from the previous fiscal year-end mainly due to the large

amounts of collection of Notes and accounts receivable and Contract assets following collection of trade receivables. Total liabilities decreased by Yen 25.0 billion to Yen 276.1 billion from the previous fiscal year-end owing to repayment of interest-bearing debt. Net assets decreased by Yen 5.8 billion to Yen 122.3 billion from the last fiscal year-end due to Loss attributable to shareholders of Hitachi Zosen in the first half of this fiscal year.

### (3) Forecast of consolidated earnings

As for the fiscal year ending March 31, 2022, we have revised upward the full-year forecast for order intake from the previous forecast announced on Aug 4, 2021. It is because the overseas subsidiaries have contracted the large-size O&M contracts in the first half of this fiscal year.

Meanwhile, the upward revision is due to the order intake for long-term operations at overseas subsidiaries, the forecast of consolidated sales and earnings in the fiscal year ending March 31, 2022, remains unchanged over the announcement on Aug 4, 2021.

We assess the impact of the COVID-19 pandemic for the current consolidated fiscal year is limited. We will disclose it immediately when we need to revise the forecast.
